NEITHER BRUSSELS NOR WESTMINSTER

THE CAMPAIGN for an English parliament is a breath of fresh air that should be welcomed by all true Englishmen and women. For too long the English have been denied their right to national self-determination, but at last more and more English people are waking up to the reality of their unique identity — an identity that is being attacked daily!

Of course, we must not be complacent in our struggle for English independence.

Politicians — especially **Tories** evermore desperate to find a bandwagon to bring them back to power — will hope to take over any English Nationalist campaign and turn it into a political gimmick. These are the same people who yesterday were 'unionists' demanding that England (and the Celtic Nations) be submerged in a blanket Britishness, that

regaining Nationhood for the English through dragging us straight out of Westminster slavery into the even more despotic slavery of Brussels.

The only way to fight for England and the English is to join the **Third Position**. We're not party politicians out to score points and win votes with false promises and betrayal. We are English Nationalists and — just like you — we love this land and intend to fight to secure its future.

NOR WESTMINSTER

THE CAMPAIGN for an English parliament is a breath of fresh air that should be welcomed by all true Englishmen and women. These are the same people who yesterday were 'unionists' demanding that England (and the Celtic Nations) be submerged in a blanket Britishness, that possessed no meaning at all.

We must also be wary of those who would seek to give England a Parliament, whilst continuing to support Westminster, Brussels, Capitalism and the failed multi-racial experiment.

When we fight for England, we fight for an English England, under the control of English people!

✦ *We don't want* the same old vested interests of Party, Big Business, Banks or Freemasonry.

✦ *We don't want* the same old faceless bureaucrats manipulating things behind closed doors.

✦ *We don't want* the same old careerist Eurocrats shoving their noses into *our* affairs.

✦ *We don't want* the same old taxes levied to pay back the Bank of England for money the government should be issuing itself: *not* borrowing from usurers at interest.

Just as the people of Wales and Scotland are in danger of being dragged from Westminster rule to Brussels rule by so-called "Nationalists", so we must ensure that England

English Nationalism is growing daily. Careerist politicians are beginning to recognise this, and we face the danger of them turning English Nationalism into a party political game rather than a force for real change.

does not exchange one set of chains for another offered by **Tory** or **Socialist** "Nationalists" who jump on the bandwagon.

The opportunity to establish a British Family of Nations — sovereign Nations who recognise their independence and separate cultures but are mindful of their shared heritage and history, presents itself to us. This is an opportunity that we cannot afford to miss.

We must not allow politicians to ruin this chance of

YOUTHS ARE ANTI-HOMOSEXUAL

A REPORT by the **Institute of Education** shows that teenagers still use words describing homosexuals as terms of abuse. Gay, Queer and Poof are all used to describe people who are uncool, untrendy or just those who deserve abuse. This shows that the 'pc' brigade are failing when they target youngsters with their propaganda on TV programmes such as **Eastenders**.

RECOGNISING THAT people are sick of party politics Tony Blair has made much of his "Third Way", a soundbyte which has replaced his "stakeholder economy" - presumably as anyone with even *an ounce* of intelligence knows that the big stakes in this economy are held by Big Business and foreign investors.

So what is Tony's "Third Way"? An alternative to Capitalism and Socialism? A new road away from vested interests and 'The City'?

No! Tony's "Third Way" is a hotch potch of Capitalism AND Socialism. So we have the usurers of the **Bank of England** (soon to be replaced by the **Central European Bank**) increasing interest rates; more powers for a rotten and aggressive police force whilst crime flourishes; more laws passed prohibiting "racism" while pensioners live in fear of being mugged; more rights for degenerates and perverts while the family is constantly undermined.

Look at Tony's new friends: the Chinese government. This murderous Communist regime has embraced Capitalism. Tony was pleased as punch as he toured the Shanghai stock markets and received advice on what to invest in.

Meanwhile, abortion is enforced

BIG BROTHER IS CORRUPT!

AS WE HURTLE down the road to a Big Brother State, recent reports, such as 'Police corruption in UK 'at Third World levels' (Sunday Telegraph) are a cause for concern for all Englishmen.

CCTV cameras are popping up everywhere. Smart cards are to be used on motorways. Photocards are to be used for driving licenses and photos are to be added to credit cards. More phones and homes are bugged and mail intercepted than ever before. The right to silence has been taken away, allowing corrupt police officers to entrap suspects. Snooping video cameras are even put into the homes of those still innocent before the law (as in the recent Stephen Lawrence case), whatever happened to innocent until proven guilty?

Most of these things are done for convenience or to protect us from criminals - or so the authorities tell us. Yet crime continues unabated as organised criminals find ways around these so-called crime prevention methods.

It is the normal Englishman who is really effected by these things. It is he who is inconvenienced, he who is spied upon. No longer is the Englishman's home his castle.

State apologists claim that only criminals have something to fear. Not so. It is the sort of people who may speak out from time to time about immigration, abortion, corruption or homosexuality who may find themselves on the receiving end of the State's attention, and as many policemen are corrupt who is to say that Nationalist supporters won't find themselves framed so as to clear up 'racial' incidents in order to placate the noisy immigrant groups and a liberal media.

Don't think it can't happen. Anti-nuclear activists were the victims of such stings not so long ago, when they were 'Public Enemy Number One'. Those dubbed 'racists' by the Westminster regime and the New World Order are now labelled as a bigger threat to their false 'harmony' than the CNDers ever were to the Anglo-American 'special relationship'.

When racial strife occurs as immigrants move into previously White areas on a large scale, perhaps as part of the government's new house building policy, who is to say the police won't need to be seen to "take action against racists". Under those circumstances, anyone reading this paper will have to scan their home for police Peeping Tom cameras for fear of 'community relations' officers.

Deputy Assistant Commissioner of the Metropolitan Police, John Grieve, ex chief of the Criminal Intelligence Branch and the Anti-Terrorist Squad and newly appointed head of Scotland Yard's new 'Anti-Racist Task Force'. The message they are trying to put out is that "Racism", which to our politicians includes holding an opinion on Race or the resettlement of immigrants, is on a par with criminal and terrorist activities. This an *absurd* assault on our most fundamental freedoms.

WHY WOULD the world's biggest family and children's entertainment company want exclusions from pornography laws? **Disney** is asking for an exclusion from the **Child Online Protection Act** which would make it an offence allowing children under 17 to see indecent material.

Since being taken over by Michael Eisner, a multi-millionaire Jew — whose personal fortune is estimated at \$405 million — once described as "a control freak", **Disney** has embarked on a campaign of Christian bashing and supporting homosexuality unparalleled in modern times, through subdivisions of **Disney International**, (see Editorial, TVOSG #9 for more details). *Poor old Walt must be turning in his grave!*

'**Disney**', whose business has long been entertainment mostly for children, has been the target of a very effective boycott in the USA by some religious groups, notably the **Southern Baptist Convention**, the **Catholic League for Civil and Religious Rights** and **Focus on the Family**.

Disney's hiring of Victor Salva as director of its film '**Powder**' has provoked outrage. Salva is a *convicted* child molester. He was caught on film molesting 11 year old child actor Nathan Winters on the set of a Francis Ford Coppola produced film! Salva served a mere 15 months for the forced degrading acts with would be child actor Winters.

This, plus homosexuals using **Disneyworld** for a weekend of perversion, along with the countless anti-Christian films produced by their various outlets* means that **Disney** is now, *openly*, a force ranged against the family.

In the light of this we should all be asking why a supposedly child oriented dynasty wants

Meanwhile, abortion is enforced upon all Chinese couples who have more than one child, but this doesn't concern our Tony. Profit and control are his god. China is embracing Tony's way and all is well with the world.

Life is one long media staged event for King Tony.

And what do the **Tories** offer us? They too pour scorn on Tony's soundbytes and instead offer us the "*British Way*". Sounds nice and patriotic doesn't it - even to the Black and Asian **Tory** members?

So what is this "*British Way*"? All it boils down to is the same old Westminster scam under the control of the same vested interests and financiers as Tony Blair's lot!

This is the same regime that started out in the road to European Union, homosexual rights, the Police State, abortion on demand, and Capitalist greed.

RURAL ENGLAND UNDER THREAT

ACCORDING TO a report by the **Rural Development Commission**, a half of the food retail outlets in rural England have closed since 1991! This shows the sort of pressures our rural communities are coming under, on top of Labour plans to concrete over green field sites. Nationalists in rural areas *must* start campaigns aimed at urging people to use their local shops, as opposed to travelling to supermarkets which takes money out of the local community.

A TP militant who ran a crafts and antique shop in rural Berkshire a few years ago said: "*We were forced to close down because local people just passed by in their cars on their*

way to the nearest large towns. Those that did take the time to visit the village centre were pleasantly surprised and often came back, but there seemed to be a lack of interest as the shops closed down one by one. Only when it was too late did the locals realise the pickle they had put themselves in."

The time must come when local shops are given incentives to ensure local communities are kept alive. This, a move back to the land, the revitalisation of agriculture and the restoration of the infrastructure of market towns is central to the **Third Position's** Distributist ideology.

The boycott against Eisner's **Disney** is working, despite what the media would have you believe - a media in which many of Eisner's pals and co-religionists reign supreme. The boycott is hurting Eisner's profits and image. This is why Eisner lashed out intolerantly and called Christians "nazis" at a recent media event.

Do you want to support an empire which employs convicted paedophiles? Do you want to support an empire which is child orientated and which constantly promotes homosexuality? Do you want to support an empire which produces anti-Christian films and seeks to be exempt from anti-paedophile laws?

It is not Nationalism. It is certainly no alternative to Socialism. Slavery to Brussels would follow just as surely as it will under **Labour**. We know this because the powerful groups who govern world affairs demand it. It might be sooner or later — but the **Tories** will fall into line when the time is right.

Only by rejecting party politicians, 'The City' and **The Bank of England**, Capitalism and Communism, Westminster and Brussels can we, the people of England, be *truly* free.

This ship is sinking fast! The politicians want us to reposition the deckchairs on this Titanic. The urgent need for *real* change and *radical* English Nationalism should be obvious to all.

THE CULTURE OF DECADENCE

THE FIRST legalised red light district in England is to be launched in the city of Middlesbrough. Councillors have agreed to establish a controlled area for prostitutes, despite protests from outraged residents and businessmen concerned about the activities of vice girls. Local police have drawn up plans to move these women to a designated area away from residential areas.

The zone is to be controlled by the prostitutes themselves, with help from the police and health agencies. With "progress" like this, how long before "the oldest profession in the world" becomes a "job opportunity" for our daughters?

BRADFORD ASIAN VIOLENCE

FOLLOWING reports of attacks against Whites from Oldham, Lancs. (see last

issue), and London; Bradford is coming to the fore as a city where vicious attacks are carried out on Whites.

On September 30th, three Asians in their early 20s attacked a 26 year-old White man in the Manningham area of Bradford. As he refused to hand over his money they set him on fire!

This is just one in a series of horrific Asian on White attacks in the West Yorkshire region.

While Whites live in fear, the Asians are being rewarded with ex-pubs being turned into Asian 'cultural centres', another into an Asian business complex, and Bradford carries the dubious title of the "curry capital" of England.

How many attacks on Whites will it take to wake people up to the nightmare that is multi-racial England?

SEAMEN BETRAYED!

P&O FERRIES gave notice to its 300 English seamen that they are to be replaced by Filipinos, thereby saving the company £4.2m. When **P&O** did this in France in the 1980s and replaced its French seamen with Chinese cheap labour, the French fishermen demanded the Frenchmen be reinstated, or they would blockade the ports and stop **P&O** vessels entering the ports.

This they duly did, **P&O** capitulated and the French workers got their jobs back. If only the English showed as much solidarity as the French, we might save the jobs of 300 of our people.

WHO SPEAKS FOR THE ENGLISH?

IN AN AGE of politically correct politicians and money-grubbing Big Businessmen and bankers, it all too often seems that nobody speaks up for the ordinary Englishman. Our families are undermined materially by bureaucracy and government taxes on the one hand, whilst homosexuals, abortionists and bleeding heart liberals undermine family values through perversion

and murder on the other. It seems that no matter where we look, there's always some 'expert spokesman' or other attacking England, the family, our heritage and interests. Such 'experts' quote *dubious* sources for their equally *dubious* claims, whilst the media does little or nothing to contradict their anti-English lies.

FIGHT BACK

It's as if we're meant to sit back and take all the rubbish they throw at us. It's as if it is acceptable for them to run down our Country and everything that is dear to us.

Well, the time when these low lives - be they socialist teachers or grasping bankers - could have it all their own way is coming to an end. The fight back has begun. Ordinary men and women, the length and breadth of England, are saying "*Enough is enough!*"

We are fed up with degenerates. We are fed up with high taxation. We are fed up with criminals. We are fed up with endless alien immigration. We are fed up with pensioners being treated as second class citizens. We are fed up with the lack of a future for our children.

The list is never-ending.

ENEMIES

How long do the enemies of the English think they can treat us this way and get away with it? They may be sitting pretty now, but their treason and corruption cannot go on forever.

As long as the people of England are isolated and disorganised, the politicians and bankers, who have bled this country dry, will remain at the helm and *continue* abusing this nation. It is easy to say "*what can I do?*", or "*I cannot possibly make a difference*". But that is what the anti-English establishment want you to think. They tell us that "*the clock cannot be put back*", that the happy, prosperous and contented England of the past is no longer possible.

WHERE WE STAND

1. THE PRIMACY OF SPIRIT. We believe that the quality of a society is a reflection of the quality of *the men* in that society. Thus, we need New Men to build a New Society. For us, therefore, Spiritual Revolution is *not* an option, it is a *vital necessity*.

2. THE MORAL ORDER. The modern world is the product of *low standards* or *no standards*. The only logical answer, therefore, is to rebuild a moral society that rejects the "*culture of death*" represented by Abortion, Euthanasia, Divorce and Homosexuality.

3. OPPOSITION TO MATERIALISM. Capitalism, Socialism, Anarchism, Freemasonry, Modernism and Liberalism are *all* expressions of Materialism. *None* will be tolerated in a National Revolutionary State.

4. ZIONISM. We oppose every manifestation of Zionism, believing it to be a threat to world peace. Zionist influence, wherever it lurks, must be completely stamped out.

5. POPULAR RULE. Westminster is not government, but *dictatorship by deceit*. We believe that political structures for direct participation by citizens must be adopted in the community's interest.

6. RACE. We are wholly opposed to the multi-racial society. Since each race has a right to self-determination, we believe that the English are entitled to *unequivocal* and *absolute* possession of their country. Humane resettlement of all non-European immigrants is in the best interests of all peoples.

7. THE ENVIRONMENT. Preservation of all aspects of the environment - land, sea and air - is *central* to Nationalist politics. As such, they will *never* be sacrificed to economic theory or political whim.

8. THE BANKS. The current Banking System is *murdering* our country at all levels through *unpayable debt*. We believe that the banks must serve the National Interest, and under a Nationalist government *will* do so!

9. OWNERSHIP. We are a Distributist movement, which believes in widespread property ownership in the form of: family farms, Guilds, and small businesses. Individual interest and the Common Good *must* be in harmony.

10. NATIONAL REVOLUTION. We believe that the English must

COUNTER POWER FOR ENGLAND!

FOR DECADES, nationalists in Europe have sought to regain control of their countries by two fundamental approaches: Parliamentary elections and armed struggle. Clearly, given the current state of Europe, neither has worked; and neither could have worked for the good reason that, in spite of the apparent differences, they are both strategies that play the

Establishment's game. Consensus politics and confrontation politics are two sides of the same coin, for the first hands over colossal sums of *our* money to the State during elections, whilst the latter invites the State to clobber us out of existence with their vastly stronger police force and security forces. In both cases, nationalists are directly 'involved' with the State; in both cases, Nationalists are fighting on enemy terms; in both cases, nationalists have no chance.

What is needed is a strategy that is new and fresh, a

expansion and in-depth consolidation. In other words, they will see the New England arise before their eyes brick by brick, not by the waving of a magic, parliamentary wand!

The purpose of Counter Power is to build positions of

strength from which to expand outwards. Thus, we must seek to create pockets of support in selected communities, and amongst key social classes such as small businessmen, militant workers and radical students. We must create economic structures that provide more and more money to advance the National Revolution, and which provide a living for more and more comrades and their families outside of the System. We must seek to take over more and more houses, and more and more land in rural areas, in order to build bases that are healthy and are a living example of what we want the New England to be.

Sounds utopian? Sounds a bit far-fetched? Yes, but *only* to those who are *not* involved with the *Third Position*, for

that "the clock cannot be put back", that the happy, prosperous and contented England of the past is no longer possible.

EVERYONE COUNTS

This is utter nonsense. Every single person joining "The Crusade" to liberate England from her enemies makes a *real* difference. It's true that the task ahead is difficult, but

system is rotten, so more and more will seek a solution. That's where activists and committed supporters come in. They can show them that there is a way out of the crisis, that there is hope for the future.

The Third Position has a serious strategy for winning back England. It is the strategy of Counter Power, the *sole* option left open to a suffering people!

in widespread property ownership in the form of: family farms, Guilds, and small businesses. Individual interest and the Common Good *must* be in harmony.

10. NATIONAL REVOLUTION. We believe in an alliance of National Revolutionary States and Peoples as a necessary weapon in the struggle against the New World Order. A Nationalist world is the best guarantee of stability and justice for all.

COUNTER POWER FOR ENGLAND!

FOR DECADES, nationalists in Europe have sought to regain control of their countries by two fundamental approaches: Parliamentary elections and armed struggle. Clearly, given the current state of Europe, neither has worked; and neither could have worked for the good reason that, in spite of the apparent differences, they are both strategies that play the

Establishment's game. Consensus politics and confrontation politics are two sides of the same coin, for the first hands over colossal sums of *our* money to the State during elections, whilst the latter invites the State to clobber us out of existence with their vastly stronger police force and security forces. In both cases, nationalists are directly 'involved' with the State; in both cases, Nationalists are fighting on enemy terms; in both cases, nationalists have no chance.

What is needed is a strategy that is new and fresh, a strategy that gives us a fighting chance, and one which is largely under our control. Such a strategy must *not* engage the State directly, and it must largely be immune to the attacks of the media. That strategy is called Counter Power.

Counter Power is based clearly on the on the idea that we can only retake our country from the bottom up, just as we can only build a house from the foundations up. Once this is really understood, militants will not be seeking overnight 'national' victories or spectacular results, but rather will be looking for steady growth, territorial

expansion and in-depth consolidation. In other words, they will see the New England arise before their eyes brick by brick, not by the waving of a magic, parliamentary wand!

The purpose of Counter Power is to build positions of

strength from which to expand outwards. Thus, we must seek to create pockets of support in selected communities, and amongst key social classes such as small businessmen, militant workers and radical students. We must create economic structures that provide more and more money to advance the National Revolution, and which provide a living for more and more comrades and their families outside of the System. We must seek to take over more and more houses, and more and more land in rural areas, in order to build bases that are healthy and are a living example of what we want the New England to be.

Sounds utopian? Sounds a bit far-fetched? Yes, but *only* to those who are *not* involved with the *Third Position*, for the Third Position has *already* set up shops and businesses, bought land and houses, and provided work for comrades and families. What has been achieved is just the beginning. With more activists, with more supporters, with more sacrifice such achievements can be extended greatly and more rapidly. You are the key to that development, you and millions like you! If you want to build a real future, you must give and do all and you must work with the committed and proven militants of like character. In other words, if you want a real future, you *have to be* with the Third Position heart, mind and soul! **There is no alternative!**

BIG BROTHER AGAINST THE FARMERS

JUST AS THE Westminster government betrayed the coal miners and deliberately ran that industry into the ground, thus helping to make this country less self-sufficient, so it would seem the politicians are intent on ruining our farmers.

Over the last year or so we have seen more farmers facing the brink, giving up and even committing suicide.

So what does the system do? Step in to help the farmers? Stop imports of produce we can grow and rear ourselves?

No. It would seem the system places more importance on stopping any radical elements in the farming community by asking policemen and their civilian staff to spy on farmers who may plan supermarket or port blockades and pro-rural rallies.

The 'Force Intelligence Bureau' of Gwent police in South Wales issued a circular to nearly 2,000 police, special constables and civilian staff back in September! Joan Webster, the force's assistant chief constable, believes other forces have set up similar intelligence networks.

Indeed, forces such as Avon and Somerset, Cheshire and Gloucestershire have stepped up their intelligence gathering. Some forces, such as Sussex, have even asked the political police - Special Branch - to step in to the dirty work for them.

Welcome to Soviet Britain!

Yet again we see the system protecting Big Business and putting internationalism before the livelihoods of its own people!

WESTMINSTER: HOMOSEXUALS AND TRAITORS!

THE SELL-OUT TO BRUSSELS

AS EXPECTED - despite assurances prior to the last election that they were "patriots", **Labour** seems increasingly intent on taking us into the bankers' super-state. The **Sunday Telegraph** of 8th November put it like this: "...the Governments plans to join European Economic and Monetary Union shortly after the next general election, a policy which is at the heart of **New Labour** strategy."

This has been on the cards for some time. Only recently Gordon Brown and Peter Mandelson came 'out of the closet' about their fervent support for European Union. Meanwhile, Tony Blair continues to hob knob with 'Federalist' political bosses in Germany and France, assuring them that Britain will be in their Bankers' Europe.

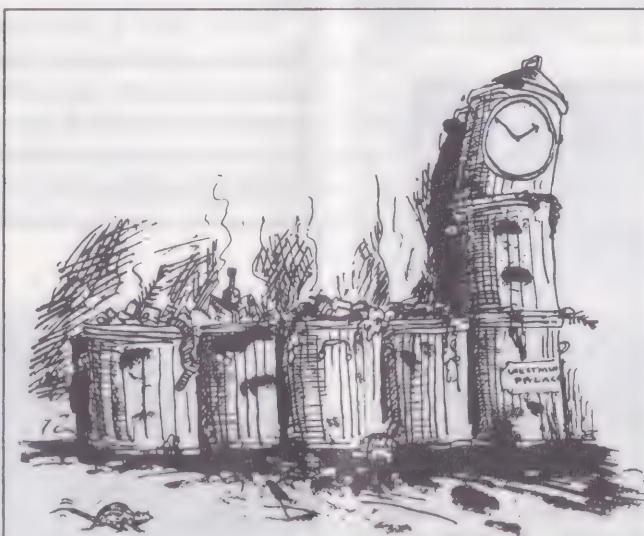

As we have stated before, our politicians are intent on betraying us by delivering us lock, stock and barrel to the Eurocrats. The **Lib Dems** today, **Labour** tomorrow and the **Tories** next week. It cannot be denied that the politicians want us to enter; and not for any convincing reasons other than blind internationalism. They seem prepared to risk all for a discredited ideology.

Of course, behind all this is a mad power-lust by bankers and Eurocrats who will reward their lap dogs in Westminster by giving them 'generous salaries and perks as unelected Eurocrats (such as Leon Brittan and Neil Kinnock).

The only way we can hope to counter this sell-out and betrayal by the political parties is to organise politically and represent the wishes of the English people on the streets and on the doorstep.

The **Third Position** is launching an Anti-Euro campaign which will be backed up by **The Voice of St George** and a range of propaganda.

THE HOMOSEXUAL MAFIA

PETER MANDELSON and Gordon Brown have other things on their minds as well as selling out England to Brussels dictators.

Both have had their names mentioned in recent 'revelations' about homosexuals in the Government.

Whilst the 'Prince of Darkness', Peter Mandelson, was 'outed' by homosexual ex-Tory MP, Matthew Parris, on **BBC2's Newsnight**, Gordon Brown was quizzed about his 'sexuality' on **Radio 4's Desert Island Discs**.

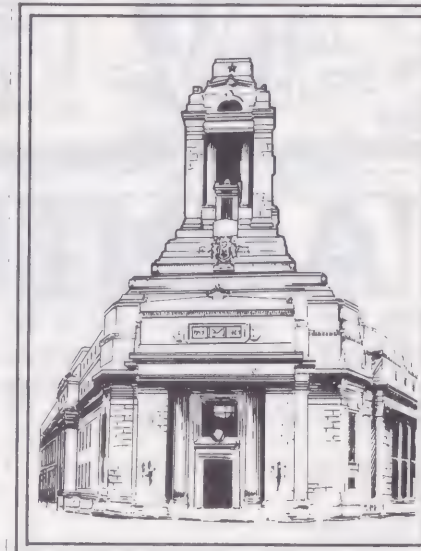

Their reactions were mixed. Mandelson contacted his close friend, **BBC Boss**, John Birt, who swung into action by issuing a memorandum forbidding discussion of this "personal" matter on the **BBC**. Birt was also a "close friend" of the **Tory MP Stephen Milligan** who was found dead in what

Birt would only allow the **BBC**, by order of a memo he issued in February 1994, to report as "*in unusual sexual circumstances*". Gordon Brown meanwhile remained calm and said it was "understandable" that people wondered about an old bachelor like himself.

Given recent revelations about ex-**Labour** Chief in Wales Ron Davies and his 'intimate relations' on Clapham Common at night, and Agriculture Minister Nick Brown and his "behind closed doors" homosexuality, one wonders who will be the next Government minister to be 'outed'.

When the number of homosexuals in the Government is considered, along with its stance on abortion, Tony Blair's 'Christian values and morality' seem as see-through and as ridiculous as his posing as a "patriot".

In his recent presentation of the government Green Paper on the family Home Secretary, Jack Straw, even went so far as to

Yet again we see the system protecting Big Business and putting internationalism before the livelihoods of its own people!

The message from Westminster is that everyone from the coal miners to the farmers and fishermen must let market forces and Big Business have their way, whilst they roll over and die, or they must face a secret state crackdown.

But woe betide the farmers if they do! They would share the fate of the coal miners, almost all of whom were on the dole before they knew what was happening.

Our message to the farmers is this: **fight!** And keep fighting. You know what the politicians, Big Business and EU want. They want the countryside controlled by large conglomerates, banks and privatised businesses.

THE SECRET STATE AGENDA

PETER MANDELSON'S name has barely been out of the papers since he took on the role of "spin doctor" in the 'New Labour' administration. Indeed, he is accredited with doing the unthinkable: taking the old Socialist super tanker (to use the government simile) that was 'Old Labour' and turning it into the Big Business, Big Brother-loving power machine that is 'New Labour'.

But recent research has cast serious doubt upon his role in moulding **New Labour**. Though he was, indeed, a member of the **Young Communist League**, it also transpires that he was a member of the **British American Project** - something set up by the American right-wing Secret State in the Reagan years - and thus a possible **MI5** operative. Far fetched? **MI5** had a file on Mandelson and so knew of his homosexuality, and in those 'less open' days closet homosexuality was often a blackmailable reason to help the security services.

HOMOSEXUALITY: THE TRUTH

GIVEN THE recent news about Mandelson, Davies and Brown, we state yet again that we are opposed to homosexuality. It matters not where this perversion takes place - in public or behind closed doors - it is unnatural and must be outlawed for the good of society.

Far fetched? **M15** had a file on Mandelson and so knew of his homosexuality, and in those 'less open' days closet homosexuality was often a blackmailable reason to help the security services.

Another **YCL** ex-member who is now an **M15** operative is Gerry Gable, editor of the "anti-fascist" disinformation sheet **'Searchlight'**. Gable and his magazine have been attacked by other 'anti fascists' for working for **M15** and causing violence amongst the 'far Left' and 'far Right'. Could the **YCL** have been a hunting ground for **M15**?

But to return to Mandelson, **BAP** members have the right to go on a 'freebie' trip each year (alternately in America and Britain). Mandelson's first **BAP** trip was to Airlie, Virginia in 1987. Interestingly Jeremy Paxman - the host on the **Newsnight** show on which Mandelson was 'outed' - is also a member of **BAP**.

There is much speculation that the American and British security services employed Mandelson to 'turn' the **Labour Party** into a party 'friendly' to their interests, using his then secretive sexuality as a means to move him into their circles.

It is interesting then, that certain alleged 'Nationalists' in this country are known to be waged by a shady American 'nationalist' group, which is known to be an **FBI** front for infiltrating people, strategy and ideas into the European nationalist movements. It would seem that these American manipulators are trying to control events from a distance, in the same way that they have created and manipulated 'Nazi' groups in Germany and Eastern Europe in the last ten years. Clearly their intention is to put former 'far Left' and 'far Right' people on their pay roll, whether they know it or not. There is a lesson here for us all.

Homosexuality is a cancer. It is a culture of death and negates family values and procreation - the whole basis of society.

In a society that is losing its values, which is ageing as fewer children are born, and which uses abortion as a kind of contraceptive to get rid of children that might "get in the way", we must begin to redress the balance.

Only a position that maintains that homosexuality is wrong, always has been and always will be, can save the day.

There can be no bargaining or compromise. Homosexuality, by its very nature, spreads and corrupts unseen but steadily. We owe it to future generations to ensure this perversion is eradicated.

Groups like the miners and farmers know how the police can treat law-abiding English patriots. With Mandelson and their other stooges, their approach is far more 'softly-softly-catchee-monkey' to change potentially 'problematic' groups into organisations they can ultimately control.

"INDEPENDENT" TV?

If the **BBC** is an enemy of the English people because of its links to the Establishment, and because of its virulently anti-nationalist workforce, perhaps we might expect to get fairer treatment from the "independent" TV companies?

And pigs might fly!

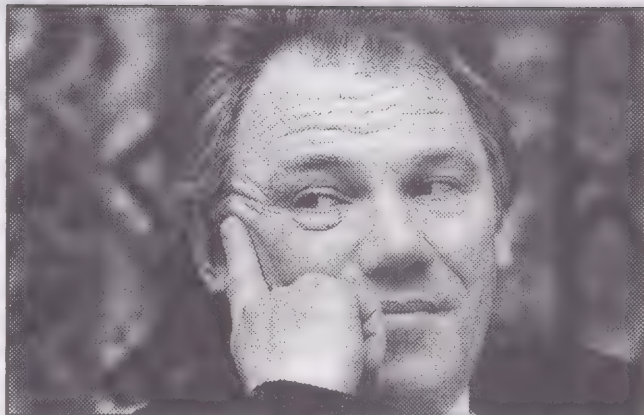

The people who own these 'independent' companies belong to the same corrupt, masonic clique to be found at the **BBC**. The sole difference is that such companies are open to pressure from their Big Business advertisers should they ever 'cross the line' of the acceptable, though their education and their "street sense" make this highly unlikely as a rule.

The same point can be made about the newspaper industry. They may be owned by individual tycoons or enormous media conglomerations, but an advertising boycott will always reveal their soft underbelly. Nor should it be forgotten that all the journalists are cut from the same cloth - some may be more left wing than others, but finding a Nationalist in such a world would be like finding a needle in a haystack.

key matters of social, economic or political policy that it is wrong, will find themselves the butt of a vile counter-attack. The preferred method is the subtle use of the media.

The **BBC** is run by much the same clique that controls so much else in our country. Dare we proclaim that these people, whose interests are not the interests of the English people, tend to come from the same public schools, and tend to congregate in the same masonic lodges? Yes, we do dare to say it!

CHANNEL 4 FILTH

A **DRAMA** series, exploring "metropolitan gay life", topped the line-up for **Channel 4**'s winter schedule unveiled in November. An eight part programme called **Queer as Folk** intends to portray the "fun, sex and friendship" of the "Manchester gay scene" by focusing upon the lives of two "close friends", who are facing up to being 30.

There is nothing shocking in this, of course. **Channel 4** is a consistent purveyor of anti-Family and anti-Christian propaganda, which covers the entire spectrum from snide remarks through to the active promotion of sickening and degenerate "lifestyles".

It is the height of hypocrisy for this immoral crowd to denounce, in hate-filled and one-sided 'documentaries', those who stand for a better way of life: pro-family activists, Nationalists, pro-lifers and the like. If you are against **Channel 4**'s perverted agenda, you can take it as read that you are an automatic enemy.

WHO CONTROLS "OUR" MEDIA?

IT SHOULD BE obvious that the media is overwhelmingly anti-English if only because it is constantly pushing all sorts of ideas and "lifestyles" that work against the Family and traditional, healthy values.

The facts are there before us, but it is only when we look *behind the scenes* at the people *who* run our TV channels, our radio stations and our newspapers that we can see *why* the media is so hostile to Nationalism, the Christian religion and sound moral values.

BBC

One of the most powerful man at the "British" Broadcasting Corporation is Alan Yentob. According to **Broadcast** magazine (14.6.96) he has "control over all BBC non-news programmes, including those for satellite channels and those in English for the **World Service**." Yentob is a close personal friend of the *immensely* powerful independent TV bosses Michael Grade and Michael Green. The three have shared holidays in the Caribbean and, together with Charles Saatchi, are referred to by coy insiders as the "*St. John's Wood Mafia*". All of them are Zionist Jews. THE BBC PLANS A HATCHET JOB AGAINST NATIONALISM

THE BBC is planning to attack the Nationalist Movement in a documentary scheduled to be screened in the New Year.

Director, Ben Lewis, from Brighton and his London sidekick, Jolyon Jenkins, have been desperately searching for inside information concerning the **Third Position** in recent weeks, information with which they want to fill out their hatchet job of a programme, and which they are 'selling' as a history of Nationalist politics in England since 1979.

FRIENDLY?

Lewis's trademark is to approach Nationalists, feigning to be a fundamentally friendly character, and even dishing up huge volumes of flattery - only to turn nasty and threaten an exposé when his requests for interviews are refused. When he approached the **Third Position**, he wrote that it was *"remarkable to learn how you are creating a self-sufficient microcosm of Nationalism at the News From Somewhere farming project in France"*. He continued: *"I was also struck by the determination it is requiring to realise the project; there seems to be an extraordinary combination of ideas which underpin the NFSW project. The whole piece had a real sense of energy and dedication"*.

CHEAP

Of course, only the gullible would be taken in by this cheap flattery. It is plainly obvious that this is simply a technique to get Nationalists to talk - thereafter, he can put the appropriate 'slant' on things and call it the reality of the Nationalist Movement.

Lewis and friends, as well as interviewing those desperate for publicity and massaging their egos in their "five minutes of fame",

have also been trying to dig up "the dirt" anywhere they can. One example is that of the **Isleworth Community Group (ICG)** in Middlesex, which is breaking down the party political stranglehold on the community - much to the chagrin of the **South Isleworth Labour Party** which regards the area as "theirs", despite the fact that they have done nothing for the local people.

IRRITATED

The **ICG** is not a nationalist group, but its recently elected councillor was a member of the **Third Position** in the early 1990s; he has since renounced his past. Nonetheless, this is altogether too much for the **Labour Party** which believes that it is losing its grip on area. When the **ICG** refused what Lewis called "an off the record chat" - fearing a smear job, no doubt, with the active participation of the local **Labour Party** - the BBC journalist "became irritated". Both Lewis and Jenkins toured the area seeking 'dirt', and demanded of the councillor that he grant a televised interview. Thus in a moment, an "off the record chat" became "a televised interview".

ADVERT

Jenkins, frustrated no doubt by the lack of co-operation, has since placed an advertisement in local papers requesting information on the local **Third Position** community group, **Liberation**.

This BBC hatchet job is not merely out to attack the **Third Position**, but anyone who is not prepared to toe the line in any way.

And they call this a democracy - what a joke!

RIDICULOUS 'TERRORIST' SMEAR AGAINST PRO-LIFERS

THE MILITANT Pro-Life group, **Crusaders for the Unborn Child**, have come under heavy media attack in recent months. It began with a smear in the down-market, Zionist-Special Branch hate-sheet, **Searchlight**.

This was quickly followed up by an idiotic article in the **Birmingham Sunday Mercury**, which accused the pro-lifers of being "terrorists"! It was perfectly clear from the article of Tony Larner, the alleged 'journalist', that he had never even read material produced by the **Crusaders**.

In the pro-life magazine, **Crusade**, a warning was given to abortionist hooligans, who attack pro-life activists outside abortionist death clinics, not to mess with the **Crusaders** who are prepared to defend themselves if assaulted. This warning was taken wholly out of context by a well-known newspaper, which lives on hysterical responses so as to promote a flagging readership.

Patriots are used to this hostile media treatment. It now seems that those who are actively fighting abortion are also being lined up for the lies and half-truths approach. The **Sunday Mercury** printed a quotation from a pro-death spokesman which claimed that the **Crusaders** seek "to promote the moral order". Clearly, this advocate of the immoral order thinks that this is beyond the pale!

Without one jot of evidence, and without looking at the **Crusaders** published material, the **Sunday Mercury** editorial called upon the police "to hunt down these fanatics". How long before such hypocritical rags call for a Witch Finder General to complete their dirty work against the unborn innocent?

A Spokesman for the **Crusaders** had this to say: "The State and the Pro Death industry are running scared of the **Crusaders** success in exposing the horrors of the 'Abortion Industry'. Our pickets of their 'Death Mills' and our effective literature have combined to bring about the full weight of the pro-Abortionists' lies and smears. They are trying every trick in the book to hinder the truth - *including accusing us of Terrorism!* All their accusations are outright *lies!* We have *never* hidden our beliefs or tactics from the public or media - nor the fact we work with people of all backgrounds - and we have *never* advocated violence to further our aims in stopping the 'Baby Holocaust'. The **Crusaders** are going from strength to strength and we are producing more literature and publicity material than ever before. We urge all the people reading this to join our Fight to smash the 'Abortion Industry'."

NOW LOOK AT THE SICK SOCIETY

DEViant MURDERER

The news that Michael Stone, the killer of Lin and Megan Russell in Kent, 1996, is a bisexual and heroin addict should surprise no-one. In a society which increasingly calls for us to recognise the "rights" of deviants and drug users (behind closed doors or not), no wonder murderers no longer face the rope, but get carpeted prison cells with TVs instead. *Something is very wrong!*

'ANTI-RACIST' BRAINWASHING

Brainwashing is the name of the 'anti-racist' propaganda game. Two of the latest campaigns in England are by the Army and Aston Villa FC.

The Army has wasted £2.5 million of taxpayers money on its campaign, whilst Aston Villa have teamed up with the University of Central England and West Midlands police, in order to promote multi-racism.

PROTECT THE INNOCENT!

Police investigating an international paedophile ring are planning to publish photographs of 400 children in a bid to save them from further abuse.

National Crime Squad officers recovered more than one million "horrendous" images of child pornography after breaking Wonderland, the largest known Internet child-sex ring in September. The 11 people arrested in September were bailed until November 18th. Once again, paedophiles are given the soft glove treatment!

It will only be when society recognises the rights of the family and stamps out paedophilia, homosexuality, abortion and drugs that will we have a society that protects the innocent and weak instead of victimising and murdering.

HOW WE ARE KILLING OURSELVES

THE OFFICIAL birthrate for the whole of Britain has plunged to a *frightening* 1.7 children per family according to statistics compiled by the **Office of National Statistics**.

Put bluntly this means that we are simply not replacing ourselves. When it is taken into consideration that immigrant families tend to have large families, the outlook for the English is bleak.

A MINORITY

In a society that is ageing considerably and where abortion is so freely available, this trend can only have drastic consequences for future generations of English people, who may well find themselves in a minority, as some schoolchildren already are in inner cities (see issue 10 of **TVOSG** front page report).

Much of the blame must lie with our politicians and media who push anti-family propaganda. The business and financial establishment must also share the blame as many people claim they "cannot afford" children and claim to need two incomes to survive.

It cannot be overlooked that selfishness is also to blame, as many English people put self-

comfort, 'mod cons' and holidays before their duty to bring up as many children as possible in a healthy, family environment.

SURVIVAL

If we are to survive as a Nation we must learn that there is nothing better than bringing up a decent sized family in a loving environment. Failure to do so will see the English as a minority in our own land.

We look forward to the day when the government of England awards those couples who have large families and the media promotes family values instead of promoting selfishness and deviancy.

CHANGE

This is no sideline to English Nationalism. Unless things change for the better - and drastically - *we won't have a Nation to win back!*

That is the stark reality facing every one of us.

Above average! The 1.7 birthrate spells disaster for the English people and Nation. We will soon become a minority.

THE SLOW DEATH OF MARRIAGE

THE **LABOUR Party** recently launched plans to shore up ailing family life in Britain. It is gross hypocrisy for those who promote or tolerate sodomy and abortion to pretend to care about the family.

Here are some *frightening* statistics that should make all of us sit up and take notice:

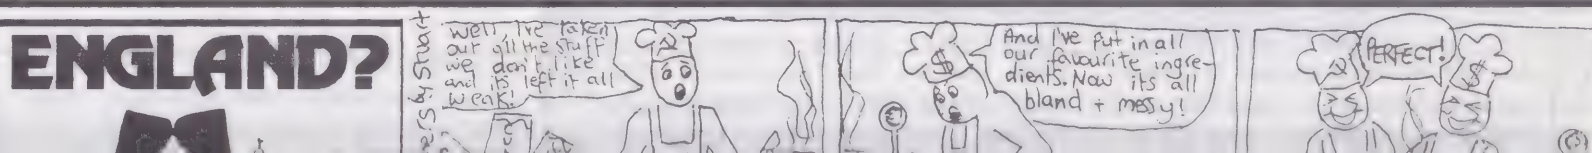

- ◆ The number of people getting married each year has plummeted to an *all time low* of 279,000.
- ◆ More than half of all marriages, 58%, are now conducted outside church in a civil ceremony.
- ◆ The average age of women getting married has risen from 26.8 in 1995 to 27.2.
- ◆ For men the figures are up from 28.9 to 29.3.
- ◆ The average age at divorce is 39 years for men and nearly 37 for women.
- ◆ More than one in three births now takes place *outside* marriage.
- ◆ The number of children being baptised into the Church of England has sunk from 365,000 in 1940 to 150,000 in 1995.
- ◆ Roman Catholic baptisms have also fallen from 74,000 in 1981 to 67,000 in 1996.

- ◆ The divorce rate, among the highest in Europe, has hit 154,000 or 13.5 for every 1,000 marriages.
- ◆ Some 55% of all divorces involve the parents of children under 16 years old.
- ◆ Up to 15% of new mothers suffer from post natal depression and one in 16 experiences serious marital problems after the birth of a child.
- ◆ A recent survey showed that only 8% of people believed the Government could be trusted to talk sense on family matters (hardly surprising given the amount of homosexuals in parliament!).

The outlook is clear. We, as a Nation, are putting off marriage and having fewer and fewer children. Marriage, as an institution, is slowly dying as a result of this.

Politicians and the media who promote adultery, promiscuity, perversity and abortion must take the blame. Far from being responsible and directing the Nation down the path away from self-destruction, these fools are happy to watch things get worse - whilst they collect their 30 pieces of silver.

These people must be treated as the traitors that they are.

- ♦ More than half of all marriages, 58%, are now conducted outside church in a civil ceremony.
- ♦ The average age of women getting married has risen from 26.8 in 1995 to 27.2.
- ♦ For men the figures are up from 28.9 to 29.3.
- ♦ The average age at divorce is 39 years for men and nearly 37 for women.
- ♦ More than one in three births now takes place *outside* marriage.
- ♦ The number of children being baptised into the Church of England has sunk from 365,000 in 1940 to 150,000 in 1995.
- ♦ Roman Catholic baptisms have also fallen from 74,000 in 1981 to 67,000 in 1996.

- ♦ The divorce rate, among the highest in Europe, has hit 154,000 or 13.5 for every 1,000 marriages.
- ♦ Some 55% of all divorces involve the parents of children under 16 years old.
- ♦ Up to 15% of new mothers suffer from post natal depression and one in 16 experiences serious marital problems after the birth of a child.
- ♦ A recent survey showed that only 8% of people believed the Government could be trusted to talk sense on family matters (hardly surprising given the amount of homosexuals in parliament!).

The outlook is clear. We, as a Nation, are putting off marriage and having fewer and fewer children. Marriage, as an institution, is slowly dying as a result of this.

Politicians and the media who promote adultery, promiscuity, perversity and abortion must take the blame. Far from being responsible and directing the Nation down the path away from self-destruction, these fools are happy to watch things get worse - whilst they collect their 30 pieces of silver.

These people must be treated as the traitors that they are.

YOUR DONATION = OUR GROWTH!

THERE ARE many readers of *The Voice of St. George* who, for one reason or another, cannot be active with the Movement. However, everyone has a part to play in this cause and if you can make a donation, no matter how large or small, it will go towards helping our various national and local campaigns.

We have many campaigns planned for 1999. Some are wholly new, others are based on existing structures and activities. Some are bold and brassy, some are quiet and designed to sink local roots and win over supporters in important roles. Some will be designed to build the movement where we have activists and Squads, others will be designed to build the movement in 'virgin' areas for us.

So donate what you can today. We don't have powerful or shady backers. We rely on the support of normal English folk for our finances. Please give what you can (as often as you can!).

Send all donations to: *The Secretary, BCM ITP, London, WC1N 3XX, England*. Please make cheques payable to 'TPFF'. If a receipt is required, please enclose an SAE. Direct debit forms are available for those who would like to give every month (Send an SAE to this address for a form). *We know you will help us to build the Nationalist movement in England.*

OUT AND ABOUT**MIDLANDS CAMPAIGN**

Activists in Birmingham have been pushing the poster version of *The Voice of St. George* (see page 4). These have generated an excellent rate of enquiries. As such, the local militants would like to help individuals and groups of supporters anywhere in the West Midlands in distributing this poster. Contact the **West Midlands TP** at their regional address for details.

YORKSHIRE CAMP

Militants from a new Squad based in a Lancashire town which hasn't seen an active **TP** presence for many years held a camp near the historic town of York in September. Organisers from the South and the Midlands travelled to the camp to help out and hold discussions.

Various strategies were discussed and this new Squad seems keen to start spreading the word and building local initiatives.

These young militants are just some of the new recruits coming into the Movement, thanks to increased activism by Militants across the country, the popularity of *The Voice of St. George* and the **TP's** loyalty to 'traditional' Nationalist values — Sound Finance (anti-usury, anti-Capitalist), Distributism, Family Values (anti-homosexual and pro-life) and racial separatism (humane resettlement of non-Europeans).

HALIFAX ACTIVISM

Another young Squad has been especially active in the Yorkshire town of Halifax. Materials distributed in the town centre led to a huge number of enquiries on the local mobile phone number advertised. These were followed up quickly and have resulted in support for the **Third Position** growing in the town.

LOCAL MEDIA AND HOMOSEXUALS UP IN ARMS OVER EAST YORKSHIRE CAMPAIGN

LOCAL CAMPAIGNING by **Third Position** Militants has paid off again in the North of England! This time, activists in the East Yorkshire seaside town of Bridlington set the agenda by distributing materials opposed to the proposed opening of a homosexual pub; something particularly outrageous in a town where so many families choose to take their weekend breaks.

LOCALS ANGERED

Locals were rightly angered by such a plan and the distribution of anonymous anti-homosexual material started almost immediately, following on from the recent campaign against the **Methodist** Rev. Paul Flowers.

Five years ago, Flowers, a self-confessed homosexual, was convicted of gross indecency in a public toilet with another homosexual in Botley, Hants. (see last issue for full details).

This was followed by a barrage of letters to the local newspaper, the **Bridlington Free Press**, including a most welcome letter from the local **Free Presbyterian** minister, the Rev. Paul Fitton, totally con-

demning sodomy.

SODOMY CONDEMNED

This was *especially* welcome because the usual homosexual trick of playing the 'Christian' card of "turning the other cheek" went up in smoke. The Rev. Fitton made clear, sodomy is condemned in the Bible and he and other Christians, like **Baptist** minister, the Rev. Mel Jervis in Merthyr Tydfil, Wales, were organising a petition against the proposal to lower the age of consent for homosexuals by 'our' amoral Parliament.

ACTIVISTS

Once **TP** activists distributed stickers condemning homosexuality the whole of Bridlington became involved in the debate!

The **Bridlington Free Press** ran a hysterical front page **CALL TO STOP 'FASCISTS'** in which

our 'No queer pubs in Brid' stickers was condemned (and reproduced) and the usual rent-a-quote crowd were called in to condemn the **Third Position** and whitewash deviant behaviour.

PINK PAPER

This was just the start though! With the homosexual mafia at hand, word quickly got back to 'The Pink Paper', a lurid broadsheet that pushes all sorts of perversity and filth.

The pinkos at **The Pink Paper** could not resist running the story on their front page - together with the 'offending' sticker, with the phone number. How interesting that they quoted from councillor Ian Male from Bridlington - "a close friend" of the convicted deviant Paul Flowers.

This was followed up by a piece in 'The Big Issue' which reported on our campaign.

THE FAMILY

So, in the minds of the East

Yorkshire public, of homosexuals up and down the country and an increasing number of the public at large, the **Third Position** is establishing itself as the sole organisation that actively opposes homosexuality and promotes real family values.

ACCEPTABLE?

That this should happen when other 'nationalists' are claiming homosexuality is acceptable "behind closed doors" is *especially* welcome.

Is abortion acceptable behind closed doors? Is paedophilia acceptable behind closed doors? Is race-mixing acceptable if it is behind closed doors? *Of course not!* The effects are still felt in society.

If something is wrong, it is wrong wherever it happens! *That much is common sense.*

Well done to the militants of East Yorkshire. They intend to keep up the pressure and ensure that the voices of locals are heard in the battle to stop the perverts' pub opening.

political or community groups and initiatives. However, we have listed below a few of the sites that are openly **Third Positionist**.

SPANISH CAMP

A Third Position camp took place in Northern Spain in September. The response, as usual, from **Falangists**, **Carlists**, NR youth and TP supporters was fantastic. Militants interested in attending such events in Spain, Germany, Italy or elsewhere should write to the BCM ITP address.

The 'caretaker' of this site is an American TP group which is active on the East Coast of America. These people became involved in the cause after reading the **FC** daily 'news e-mail' and visiting the TP internet site.

The internet has led to many contacts throughout the world and has allowed us to contact

people we would never have been able to approach before — from the high school student who visits one of our web sites, to the nationalist activist or editor in some far flung part who receives **FC**'s daily 'news e-mail'.

We have been able to promote literature and other merchandise

through the internet: such as the new booklet on **Rising** magazine (see advert below). Another good example is the heavy advertising of the Carl Klang CD "**Extremist**" which has brought in bulk orders from around the world.

Of course, most Third Positionist sites on the internet are not in the English language, or operate as front groups making inroads in various cultural,

political or community groups and initiatives. However, we have listed below a few of the sites that are openly Third Positionist.

Work on building contacts on the internet is continuing, and we hope to open more sites in the near future, including more regional **Third Position** sites, front groups and single issue sites. Watch this space. *'You ain't seen nothing yet!'*

Scots comrades have started distributing 'The Scottish Distributist' which outlines their viewpoint and attacks the SNP for their pro-European Union stance. THE THIRD POSITION IN EUROPE!

OVER THE last few months the **Third Position** has been busy consolidating its links with Comrades throughout Europe. A regional official was present at a radical nationalist conference in Slovakia, speaking on the community activities of the TP in England, and on plans for pan-European work in 1999.

In Spain, militants were present at the November ceremonies held in memory of Jose Antonio, the Falangist leader, murdered by Reds. TP materials sold like hot cakes to the thousands of nationalists gathered.

In Germany, the NPD ran an excellent article on Codreanu in their paper, and have invited a leading TP official to be their main guest speaker at their AGM in January.

IN AMERICA!

OUR COMRADES in the **American Coalition of Third Positionists** have established their web site and are beginning a regular journal to bring together Third Positionists from right across America. American readers can contact them at: ACTP c/o Jakub K. P.O. Box 1503 Rockville, MD, 20849. Instant Message: ACTP01. Web: <http://3rd.org> Email: 3rd@frikio6.onet.pl

THE FIGHT ELSEWHERE. We've had to drop this regular feature due to lack of space. It *will* be back next issue.

RISING

A Booklet for the Political Soldier

WHEN **RISING** was first published the Nationalist movement was very different from today. Then the **National Front** was the main force in the country seeking change, although it was very imperfect in its structure, leadership and beliefs. Whilst there *were* radical elements in the NF and other organisations (some of which had and have faded away), Nationalism had been the haunt of 'right wing Tories' for a long time (remember their mass exodus to Maggie 'concerned about swamping' Thatcher in 1979?).

Although by 1981 many of these people had gone back to their real political home in the **Conservative Party** (God Save the Queen!), there were still old and tired right wing elements around.

Rising was a revolution! It was something new and exciting and gathered around it the best minds and militants in Nationalism. Although its circulation wasn't huge (and as the editors will now admit, not every line taken was *perfect* in this "age of experimentation"), its impact was *enormous*. For the first time Nationalists began to discuss the need for Political Soldiers; National, Rural, Cultural and Spiritual Revolution!

All this compared to the stale reaction that *had* dominated Nationalism. It swept people along, it inspired a generation, it was the beginning of a Revolutionary Movement. "**Rising** was the antidote 15 years ago. **It is still a very valuable medicine today!**", to quote the Introduction.

This is the first official reprint endorsed by the editors of **Rising**. Published by **The Legionary Press**. 68 pages. £2.75 inc p&p (add 15% Europe; 20% elsewhere) from: **TPFF**, BCM ITP, London, WC1N 3XX, England. (Bulk rates available on request).

BUILDING THE COUNTER POWER

In this part of **The Voice of St. George** we look at the various ways the Third Positionist movement is combating the corrupt Capitalist system and the nihilist Socialist cancer. We are the only *positive* and *real* alternative and we prove this through our actions as well as our words . . .

COUNTER POWER IN ACTION

Forza Nuova - the highly active Italian affiliate of the *International Third Position* - has been in existence for just over a year, having been formed by radical nationalists who left the old MSI, independent nationalist circles and those clustered around the widely read newspaper, *Foglia di Lotta*. From the outset, the leadership has emphasised that Ideas **must be combined with** Action, not just from time to time, but on *all* occasions and in *all* places.

This is logical enough, but it is *how* Forza Nuova *define* Action that is important. Of course, large demonstrations on the streets and the mass distribution of newspapers and other propaganda materials constitute real action, but they are not seen as the beginning and end of Action, although neither are looked down upon. We can see this in the fact that FN sell around 20,000 copies of each number of *Foglia di Lotta*, and they are currently putting up around 15,000 posters per month. Naturally, this has resulted in real growth; in October, the Naples Federation, for example, decided to hold its first march in the city and attracted over 800 city folk from all walks of life: the young, veterans, the unemployed, mothers and children, workers, shop keepers and students. Thus, FN is active in what we would regard as

traditional political activities, but there is more to the FN definition of Action.

That 'more' consists in going to the people, and working among the people - *not* to seek votes or members or money, but to show solidarity in such a way that it becomes evident, even to the most cynical of people, that Forza Nuova loves its people and its country; that Forza Nuova is prepared to sacrifice itself, not only *in the name* of the people, but also *for* the people directly. Thus, social activities are held to be central to the work of the Movement.

What does this mean in practical terms? It means helping those who *need* help and *deserve* help - help that is not forthcoming from any agency in society, or from any political party in Parliament, although all claim to be "*working for the people*".

Words, mere words.

For the last two years, FN has organised summer colonies for children that come from deprived families. These children have come from the central and southern regions of Italy where poverty is endemic, and from sprawling cities where any semblance of a normal life does not really exist. This being so, FN have taken the children out of their run-down urban environment for one week, bringing them to see the *real* Italy - the Italy of mountains, forests and golden sands.

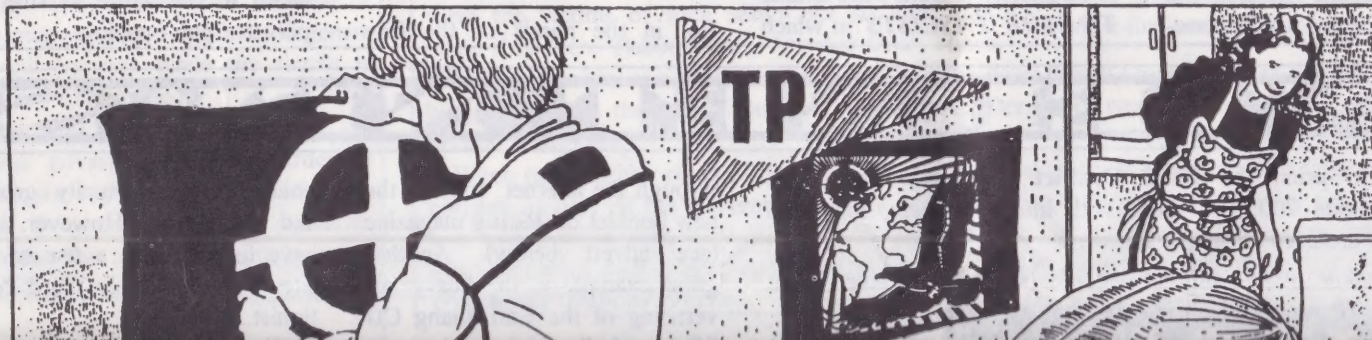

Each year, some 150 children have been chosen to go on this trip of a life time. Those mothers who were worried about their children were also invited to attend, and many did, with the result that not only was the family maintained, but the family was integrated into a practical political activity. The mothers helped practically and gave a real spirit of teamwork to the affair.

The seven days of the colony are hectic since they seek to open a world to these children. There are sports and adventure

games; there are visits to places of historical importance; there are videos on the lives of Italian saints prefaced by short talks by solid priests; there is walking, hiking and swimming; there is a healthy approach to daily life, with prayers before meals, and evening camp fires with comrades recounting folk tales and legends. It is another world for children raised in a world of concrete and depression. ***It is a world so attractive that many simply cry when the colony comes to an end.***

When the children return to their homes, there are inevitably community celebrations and parties of a clear political character. In some areas, these have allowed FN to become the dominant force in the town, with even the Mayors coming out to thank our militants for their generosity and altruism! In other words, these colonies have created a solid link between the Movement and the People, a link which, in its turn, has created the necessary conditions for other activities. For example, in one area where the colonies were organised, a nationalist Scout Movement was founded, a movement founded on the same values that had inspired the colonies: *love of Family and love of Nation*.

The implications should be obvious. This scouting activity has ensured that the educational formation of the children is beginning at 8 or 9 years of age, and will continue until they are 13 or 14 years of age. With the growth of the scouts, it means that in just a few years a vast number of young people will enter the

It is the bringing of a new generation into the defence of the Nation.

Such activities are done with the intention of helping the youngsters, their families and the Nation, but there is another positive by-product too. It is this: it unmask the parasitic approach of the political parties, who only appear at election times, ask for votes and then disappear. The problems remain for the people to solve - and FN has resolved to be there with the people in the attempt to bring lasting and positive change. *The Movement asks for nothing.* It seeks simply to build the Counter Power that will overthrow a corrupt, masonic Establishment. *Avanti!*

Putting Nationalism into a family environment and bringing the family into Nationalism gives the Movement a backbone, healthy values and a solid foundation for the future. The 'colony' approach by Forza Nuova is something the movement in England can learn from, especially as it ties in so well with home schooling and various other projects already underway in England.
